Description:

Product Description In the newly adapted and stylish new comic book, Poirot is called to investigate when a charity murder game at a Devon house turns into the real thing... Sir George and Lady Stubbs, the hosts of a village fête, hit upon the novel idea of staging a mock murder mystery. In good faith, Ariadne Oliver, the well known crime writer, agrees to organise their murder hunt. Despite weeks of meticulous planning, at the last minute Ariadne calls her friend Hercule Poirot for his expert assistance. Instinctively, she senses that something sinister is about to happen... Beware - nobody is quite what they seem! Famed for her crime masterpieces, Agatha Christie's books have become the best-selling in the world, appealing

to readers young and old for their ingenious plots and immediately recognizable characters. The stories have also transcended the printed page, become bestselling audiobooks and award-winning films, plays and television series. Now words and pictures combine in an exciting new way of telling these stories - full-colour graphic novels which enhance the original stories and offer a completely new way of enjoying some of the worlds most popular and exciting mysteries. About the Author Agatha Christie is known throughout the world as the Queen of Crime. Her books have sold over a billion copies in English with another billion in over 70 foreign languages. She is the most widely published author of all time and in any language, outsold only by the Bible and Shakespeare. She is the author of 80 crime novels and short story collections, 20 plays, and six novels written under the name of Mary Westmacott.

I'm a confirmed Miss Marple fan myself, but that doesn't mean I can't enjoy watching Hercule Poirot pull a rabbit out of a hat. Although no spring chicken, he does a fine job here, especially considering that he isn't even called into the case until Chapter 7. The back story is a bit complicated, involving the large family of a prosperous Victorian manufacturer. The Man-Who-Made-The-Money is long since gone and so are most of his children. Then the remaining ones start dying off - some suspiciously, some violently. Looks like one of the younger generation may be clearing the deck for a large inheritance. But which one? The stuffy old family lawyer tries some detective work on his own, with predictable results. Finally (in Chapter 7) he calls in the heavy artillery - his old friend the semi-retired M. Poirot. Poirot in turn calls on HIS semi-retired buddy - the wonderful Mr. Goby. Mr. Goby's business is to collect information and there's not much he can't find out. He has a great deal to say about the younger generation and the advantages and disadvantages of Big Brother governments. He speaks exclusively to various pieces of furniture and is one of my favorite Christie characters. The setting is post-WWII England and the older folks are grumbling about high taxes and labor unions and the lack of proper servants. The younger folks are choosing mates and pursuing careers and trying to get what they can out of their older relatives, while avoiding them like the plague. I especially enjoyed the two female cousins - two young women who seem as unlike as night and day and yet who have very similar attitudes toward their men. Poirot carefully, tirelessly shifts through the alibis and the motives and listens to all the people involved because he knows that eventually we ALL reveal ourselves in our conversation. In the end, it boils down to one thing. If no one is watching you, you can get away with murder.
